ABOUT ME

I am a software engineer with a special love for flutter. I absolutely love to develop mobile apps (I try to include them in every project I touch) and backend development. My goal is that, in the future, I can look back and really believe I have accomplished something meaningful and still had fun doing it.

EXPERIENCE

Software Developer Trainee | Promptly Health

07 2022 - 09 2022

Aveiro, Portugal

- Summer internship as a software developer at Promptly Health. Implementation of a centralized audit log.
- Technologies: Python FastAPI, Docker, Apache Kafka, AWS Quantum Ledger DB.

.NET Core and Flutter Developer | Universidade de Aveiro
